About the Benefit

You're invited to the Footprint of Life Gala, a movement aimed at effecting tangible changes in conservation and tackling the world's most pressing challenges head-on. Amy Green, along with the Green Vision team, has orchestrated unique collaborations, uniting some of the foremost organizations in conservation to pool their resources.

Fondly referred to by Amy as her "Camelot for the Planet," this initiative is set to be a remarkable journey. Join us for an evening of inspiration as we bring together top speakers to combine efforts and raise vibrations for the betterment of our universe.

Our Charity Partners

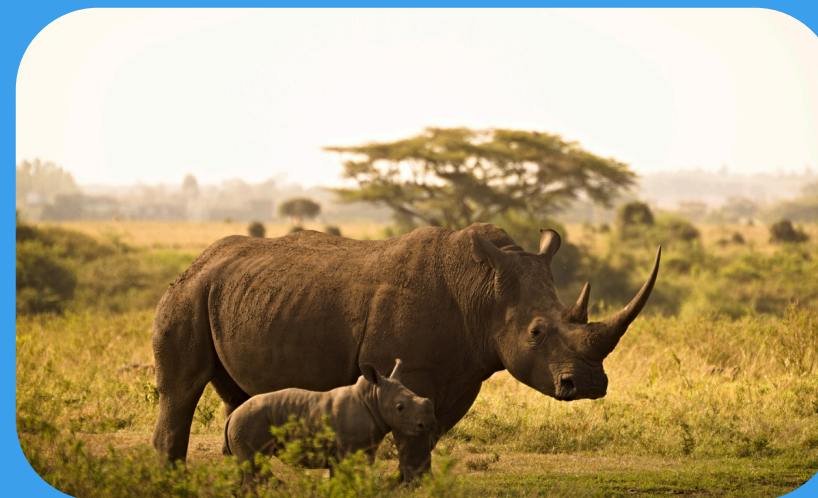

The Green Vision Foundation recognizes the critical need for action to combat the illegal wildlife trade, protect endangered species, and preserve our planet's biodiversity and dwindling natural resources. The footprint of Life gala, organized by the Green Vision Foundation, serves as a platform to raise vital funds and awareness in support of these important causes, uniting like-minded individuals, organizations, and community leaders in a collective effort.

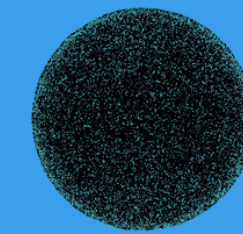

Global Conservation is the only nature conservation group whose sole mission is the direct funding of park protection systems for saving national parks and UNESCO World Heritage Sites in developing countries.

www.globalconservation.org

Tusk Trust is a British non-profit organisation set up in 1990 to advance wildlife conservation across Africa. The charity funds the protection of African elephant, along with many other threatened species across Africa.

Planetary Guardians

The Planetary Guardians is a new collective of world leaders, climate activists, and business moguls with plans to carry out an annual “check-up” on the planet's health

A letter from our founder, Amy Green

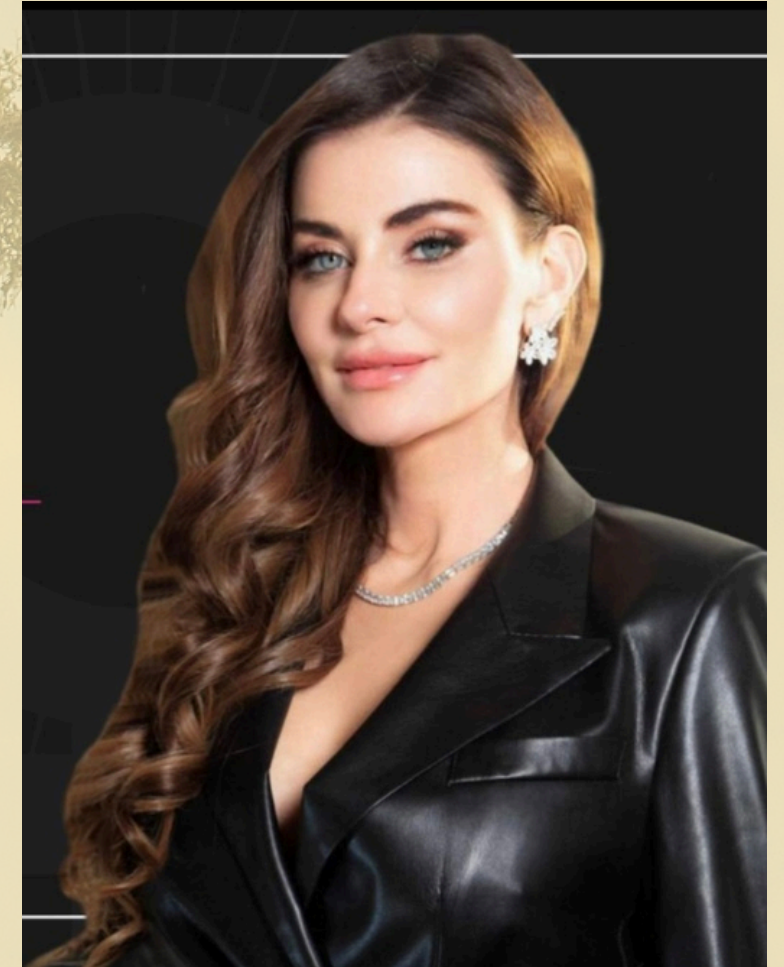

Our mission remains resolute: to unite individuals globally within our rewilding alliance, empowering us to safeguard nature and elevate communities from the grassroots level. As custodians of our planet, our pledge is to educate our youth, protect species, prevent illegal poaching, and preserve vast wilderness expanses on both land and sea.

This digital platform serves as a haven for rewilders and nature enthusiasts, where we exchange insights grounded in biodiversity science. By celebrating the grandeur of untouched nature, we inspire others and garner support for our rewilding endeavors. Recognizing and fostering a connection with nature is paramount for its preservation.

We share experiences from the rewilding frontier, inviting others to join us in our conservation efforts. Moving forward, conducting regular planetary health assessments remains pivotal, ensuring we maintain vigilance in protecting and restoring our precious ecosystems.

Your support of the Footprint of Life Gala signifies an endorsement of a shared vision: a world where environmental conservation is universal and where everyone, irrespective of their abilities, can contribute meaningfully. Join us in honoring education, empowerment, and environmental stewardship, as we pave the path towards a sustainable future.

Together, let us make a difference that will protect our planet for future generations.
